

MICHAEL A. LEVEN SCHOOL OF MANAGEMENT, ENTREPRENEURSHIP AND HOSPITALITY

We prepare our graduates through a methodical and conscientious approach to support effective operations while impact locally, nationally, and globally, establishing themselves as dynamic members of the business community.

Courses, experienced faculty, and unique resources challenge our students and instill critical skills like flexibility, adaptability, creativity, relationship development, and communication. Utilizing in-classroom and experiential learning, our faculty share and apply their personal experience as entrepreneurs, corporate leaders, and consultants. They are a bridge between students and the real world as they continue to contribute.
