

Centers & Institute Forms Submission Instructions

l) This workflow is to be used when submitting a Proposal to Establish a Research Center or Institute or a Request to Create or Modify a Research Center or Institute

Requests to establish, alter, or deactivate centers (regardless of their nature) shall be made to the Provost by the supervising administrator of the units(s) in which the center or institute is proposed or located (e.g., dean, vice president, associate vice president, executive director). All proposals requesting the creation or renewal of a center or institute will be discussed at an Academic Deans Council, allowing the deans to provide the Provost on the proposal. The Provost may also solicit other input the Provost deems appropriate or useful (for example, from the Vice President for Research for a research center or research institute). The Provost shall then make a recommendation to the President.
